and read for 10 minutes
Math - Login to Think Central
complete assignment 3.8

EXTRA ENRICHMENT AND PRACTICE ACTIVITIES: (this is not a required assignment)
Login to Think Central and explore "Library", play Mega Math Games.

Dear Parents and Students,

Parent/teacher conferences are this week. Please be sure to arrive on time to your scheduled meeting time. Please wait outside of room 502 until the conference before you has finished. Additionally, if you bring children to the meeting please remind them my classroom rules apply at all times. They will be able to read or possibly use the computer. I like to keep interruptions to a minimum since we only have about 20 minutes to review the report card.

School dismissal times for conference week will be:

Monday, 10/19: 1:20 p.m.

Tuesday, 10/20 - Friday, 10/23: 11:50 a.m.

The students will have a snack time on Tuesday - Friday of conference week but not a lunch time. If your student gets the school lunch they will provide it to them at snack time (9:40a.m.) I encourage parents to send a hearty snack Tuesday - Friday of conference week because the students are used to eating lunch at 11:10 and may get a little extra hungry not eating lunch until after 11:50 dismissal.

On Thursday it is "Read for the Record" day at Avaxat. Students are invited to wear their pajamas to school. Please no slippers. Mr. Ciabattini will be reading a story to the entire school Thursday morning.

At home this week please continue to work on your child's "Where The Wild Things Are" costume. Please do not bring completed costumes into the class before the due date. Unfortunately we have no extra storage for these items. Please contact me if you have any questions.

In Language Arts we are on Lesson 8. The phonics skills focus are short o, blends with l, and -ock word endings. The comprehension skill is Sequence of Events. We will be taking two weeks to complete this lesson due to our minimum day

schedule.

In Math we are working through Chapter 3. This chapter will cover more addition strategies. Please be sure to have your child follow the directions on the math homework because they reinforce the strategies we are studying.

Thank you to the families that have donated recently to the treasure box. The students really appreciate the new items.

Thank you for your support and please contact me if you have any questions.

Mrs. Oldham
