

# ***Mammoth***

Mammoth is a fun place for many things. In the spring you can, plant flowers with your family or friends. You can go camping with your cousins, uncles, parents, grandparents, and aunts. (Not always.) You can race toy cars and many more. In the summer, you go fishing with your family, you can go camping, and you can go on many, many hikes. My family and I go almost every year. In the fall, you can rake leaves with your parents. Sometimes you can go swimming, only if you warm it up. You can visit your cousins' house. In the winter, you can go sledding on the mountains. You can go to the cabins and stay the night or you can go to the park and have snow-ball fights. Being in Mammoth is a lot of fun.
