Hands On: Addition with Regrouping

Problem of the Day —————————————————— NS 1.4

Gregory lives in a city that has a population of 7,546. Use rounding to the nearest tens, hundreds, and thousands to estimate the population in Gregory's city.

Number Sense Review —————————————————— NS 1.2

There are 45 students in second grade, 52 in third, and 49 in fourth grade. Are there more or less than 200 students altogether? How do you know?

Number of the Day —————————————————— KEY NS 1.5

478

Write 478 in two other ways.

Facts Practice —————————————————— KEY NS 2.1

Round each number to the greatest place. Then subtract.

1. 687 − 421   **2.** 93 − 49   **3.** 704 − 160

4. 333 − 119   **5.** 89 − 29   **6.** 22 − 9
