

# Equations and Inequalities

## Problem of the Day NS 2.0

Last year Dr. Smith vaccinated 365 children. This year she vaccinated 237 children. Without finding the sum, can you predict whether regrouping will be needed once or twice or not at all? Explain how you know.

## Mathematical Reasoning Review MR 2.3

Explain why  $563 + 274$  does not equal 737. What is the correct sum?

## Number of the Day KEY AF 1.1

12

On your whiteboard, write two different expressions that equal 12. Then write an equality using the two expressions.

## Facts Practice NS 2.0

Subtract.

1.  $8 - 2$

2.  $5 - 3$

3.  $10 - 6$

4.  $7 - 4$

5.  $9 - 4$
