Multiply with 9

Problem of the Day ——————————————————— NS 2.6

Brandon has 8 shirts. There are no logos on them. How many logos are on the 8 shirts in all?

Mathematical Reasoning Review ——————————— MR 2.3

Matthias has 1 bag of marbles with 8 marbles in each bag. Jane has 4 bags of marbles with 0 marbles in each bag. Who has more marbles, Matthias or Jane? On your whiteboard, write two number sentences to explain your answer.

Number of the Day ——————————————————— NS 1.1

123

123 is a three-digit number whose digits are consecutive. What other three-digit numbers can you write using consecutive digits?

Facts Practice ——————————————————————— NS 2.0

Round each number to the greatest place. Then add.

1. $191 + 52$

2. $11 + 88$

3. $\$3.71 + \$2.17$

4. $309 + 637$

5. $26 + 37$

6. $45 + 54$
