### Class Participation Rubric

#### **Class Participation Grade: (100 points)**

The Vista Murrieta High School (VMHS) TV programs, Bronco Network News (BNN), depend on Level 1 & 2 Production Students to be creative, direct, be productive individuals without supervision, produce appropriate viewing content, special segments and keep students informed with daily news and activities. The class participation grade is a very important part of the CTE/TV Video Production program's overall student grade.

This portion of the grade evaluates an individual student's efficient use of class time, coming to class on time, is able to work in a group studio production environment, is cooperative, able to work independently on TV show projects for broadcasting and working for the entire class period without supervision or prompting from the instructor or chief editor to stay on task. In this program, a simple 1-minute video production segment can be very demanding. Points will be awarded for the participation grade using the following rubric listed below.
