

► **Respiration test review**

► Terms:

- Respiratory system
- Gas exchange
- Respiration
- Ventilation
- Cellular respiration
- Sinuses
- Alveoli
- Diaphragm
- Thoracic cage
- Inspiration
- Expiration
- Spirometry
- Tidal volume
- Total lung capacity
- Anatomical dead space
- Oxyhemoglobin

- Structure of lungs (Diagram)
- Pathway of air from mouth to alveoli
- What are paranasal sinuses
- Function of mucus
- Functions of: larynx, trachea, bronchial tree
- Structure of lungs
- How breathing works (breathing mechanisms)
- Control of breathing
- Respiratory center and functions
- Factors affecting breathing
- Alveolar gas exchange
- How oxygen is transported?
