My name is Nadia Gutierrez and I am a freshman at Los Angeles Pacific University. I graduated high school at Calvary Murrieta Christian Academy and during my senior year I decided to pursue my goal of becoming a dental hygienist. I always knew that I wanted to work in healthcare because my passion is helping people, so I decided to take it a step further and apply to a university. I am currently majoring in Health Sciences and I absolutely enjoy all the new things I am learning in school. After I receive my Associates degree, I plan to get my Bachelors in dental hygiene. Although I recently began this new journey, I am definitely looking forward for what has to come. I cannot wait to help other students in their educational journey so they can reach their future goals as well! Some other interesting facts about me are that I enjoy volunteering at my church, painting, singing, and staying active.
