MVUSD ELEMENTARY SCHOOL COUNSELING PROGRAM

Removing barriers to
academic success with
care and confidentiality

MVUSD ELEMENTARY SCHOOL COUNSELING

OUR MISSION

In partnership with educators, families, and community, school counselors support students by providing a comprehensive school counseling program which includes education, intervention, and consultation. MVUSD school counselors ensure every student has access to individualized academic, career/college and social-emotional services.

OUR BELIEF

All students have the ability to achieve their highest potential given proper resources and supports - No exceptions.

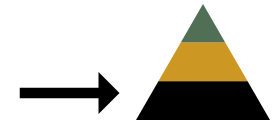

ELEMENTARY SCHOOL COUNSELORS WILL:

- Help students evaluate their own interests, abilities, skills and develop personal goals.
- Facilitate small groups to assist students in implementing positive coping skills and encourage healthy peer interactions.
- Collaborate with parents, staff and students in order to provide additional support.
- Provide community resources and referrals for support outside of school.
- Encourage empathy, emotion management, and problem solving skills in all students through core curriculum classroom lessons.

And so much more!

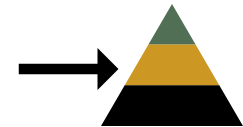

TIERS OF SUPPORT

TIER 1

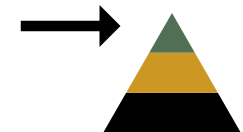

- Core Curriculum
