October 15, 2020

Good evening Murrieta Valley families of Secondary Students (6-12 grade),

A week ago, your student(s) received an email with a subject line titled, "Welcome to 24/7 online homework help" This email was from a company named Paper.co. Paper.co is a tutoring platform that provides academic support to students online.

Murrieta Valley USD has contracted with Paper to provide students in grades 6-12<sup>th</sup> with live virtual support via chat, 24/7 on any subject. The service available to all students is free and benefits students by:

- Providing students with qualified tutors in a safe online environment
- Creating 21st century learners
- Supporting digital literacy
- Promoting education equity
- Increasing student engagement and academic performance
- Closing the feedback loop between students, teachers, and administrators

Attached is a guide on how students access Paper Tutoring Services 24/7. Initially, students must log-in and use the Paper issued password included in the email they received last week. Once this initial step is complete and the password has been changed to match their Microsoft 365 account, students can access Paper seamlessly through their Canvas account.

We encourage you to print out and post the instructions to inspire your student(s) to reach out and use the available services. These services are available for the remainder of the school year and is a great tool for student support and success!

All the best,

Educational Services team
