

## Masterpiece Parody

Select a famous work of art or master piece that you would like to rework in a manner that brings it in to another time period or gives it a new style. Do a little research on various art movements and consider how you would like to incorporate a specific style in to the master piece that you select. This project will open your eyes to various art movements and styles of the past and how they may have influenced the art of today. With this project you must also write a one page synopsis of your selected piece and the idea behind the changes you have made to it. Put everything into a power point presentation for viewing. You must also supply me with your art file separately.
