

Update Friday March 20th

AP Calculus AB and BC Students,

Please go to the AP Central portion of the college board website for an update on AP Testing plans. You will be testing from home on a date yet to be announced. Relax. We have only missed one week of school. There is plenty of time to prepare for your exam.

Here is a link to the AP Central announcement:

<https://apcentral.collegeboard.org/about-ap/news-changes/coronavirus-update>

I have opened all resources in the AP classroom. There is way more here than you could ever complete. Pick and choose based on your weaknesses. I feel confident that if you follow what I am asking you to do on the review site, that you will be prepared, but I wanted to make these resources available to you in addition to what I have posted.

I do not think you need the class codes to go to the AP classroom, but here they are just in case:

Period 1: 34VA4D

Period 3: 2ZX3RY

Period 5: NG99EZ

Period 7: P2ZGNG

Calc AB students:

You should be finishing the Motion and Function Analysis FRQ's.

The next assignment would be to do the 1997 and 1998 multiple choice questions. Answers have been posted. Homework answers will be coming next week.

Calc BC students:

Keep going on the new topic multiple choice. I will start providing overviews of the FRQ's next week.

Remember that NONE OF THESE ASSIGNMENTS AFFECT YOUR GRADE.

I will deal with creating a new schedule of required assignments when we are back in class. If we don't resume classes this year, then I will need to come up some way to give you a grade, but we will deal with that as needed. Priority one is your AP exam.
