

-)) A diver is going through ocean search-and-rescue training. The graph shows the relationship between her depth and the time in seconds since starting her dive.

A. What details can you determine about the dive from the coordinates of the point $(5, -8)$?

Enter your answer.

-)) B. What is the average speed of the diver in the water? How can you tell from the graph?

Enter your answer.

-)) C. Which point on the graph shows the starting location of the diver? Explain.

Enter your answer.

-)) D. **Communicate Precisely** What does the V-shape of the graph tell you about the dive? What information does it not tell you about the dive?

Enter your answer.
