

Students create Internet web-quest

Requirements: Individual work
Use the internet

Topic: Topic: On your choice of topic [must be approved by Mrs. Macleod]

Research the sports team on the internet visiting numerous website and record data on a piece of paper

From your data, create **10 complex questions** about the sports team about odd, unusual, and facts we might not know about them or the players.

On notebook paper: Document Sports Research

You will be required to use the internet to gather information visiting at least **three** sites. Write the website address, site's official name, write information down. Continue this format for all three sites.

(In word) Create a webquest on a blank document. Save the document as webquest questions in your directory (in the word folder) First, type directions on how to complete the webquest (I will give the hints on how to write them). Second, Type the questions out.

(In word) Create a webquest answer key from the questions webquest.

HINT: file – saves as – choose word folder in your directory – save the document as webquest answers lastname. Please type the complete answers under each question. PLUS, you **MUST** supply the web information.

Turn in to Mrs. MacLeod:

Paper One: : Print out the webquest questions

Paper Two: Print out the webquest answers highlight answers and bold.
only if I approve
