## Unit 2 Lesson 3 The Market

Homework: Make a market picture

Things	that can affect su	ipply:
0	Change in	(like cost of productions – land, labor, or capital)
0		
Ū		
0		influence either subsidies, taxes or regulations.
An	tax:	a tax only on one particular item like the gas tax or cigarette tax
0	future expectati	ons of
0	number of	(external forces)
Definit	ions:	
	Co	ost: The additional cost of producingmore item.
		: the change in output that results from having one more worker.
		: when additional workers increase total output at a decreasing
rate.		
		cost: the cost of operating a store or factory; similar to variable costs.
		and the Constitution of th
aood c	cc or service	osts: the financial and opportunity costs that consumers pay while looking for a
good c	or service	
		cost: costs of production that affects people who have no control over how
much (	of a good is produ	ced. i.e. air and water pollution
equilib demar		where quantity supplied quantity
Directi	ons to make a ma	rket picture:
0		side of the page a vertical axis label it "Price".
_	Draw on the bottom of the page a horizontal axis label it "Quantity".	
0		
0		
		and curve and the supply curves meet draw an arrow and label it, "Market
J	Equilibrium" and	• • • • • • • • • • • • • • • • • • • •
