

The Roaring 20's Guidelines

Each group will receive a section of the twenties that they will be required to present. The guidelines are as follows:

1. Every group member has to be involved in the project some how. There will be four to five members in each group. Each group will have to turn into me a contract with everyone's name in the group along with group signatures showing that everyone pulled their weight.
2. Images, Each group has to provide images, whether they are pictures from power point slides, actual articles of clothing, things from that time period, a movie or a documentary-type movie.
3. Some sort of handout has to be given to the students, along with a quiz: The handouts can be questions, a crossword puzzle, pie charts or general information to reinforce what was presented. Likewise your quiz can be however you want it to be, but it has to reinforce what you taught to the class. The quizzes that are turned in to me are worth 10 points. Similar to a class worksheet.
4. Before you present, you must turn in your contracts to me. Along with a copy of the quiz & the handout.

The total project is worth **50 points** equivalent to a test grade.

25 points for individual work

25 points for presentation

Note: The books are good measuring guides. Check with me for ideas if needed

Groups will cover these sections:

1. America & Postwar Issues
2. The Policies of the Harding Admin.
3. Mass Production, City Growth, New Technologies & their effect on the U.S.
4. Changing Ways of life
5. Women in the 20's
6. Education & Popular Culture
7. Harlem Renaissance

Note: Music would be a nice touch if applicable.
