Showcase of Student Work

While it would be impossible to display every project and piece of student work completed during the school year, here's a sampling of the incredible things done by the students of Room 34. As we move through the school year, new projects will be added to **mrcoley.com**, so check this page frequently. Enjoy!

COMPARE BASIC VS PREMIUM

A revolution in the Creative Expression of Knowledge and Skills!

Glogster EDU is your original educational resource for innovative and interactive learning. Glogster EDU was conceived to imaginatively, productively, and collaboratively respond to the dynamic educational landscape and exceed the needs of today's educators and learners. We value the participation of educators and strive to assimilate their contributions to Glogster EDU, Glogster EDU is yours! Educators from all over the world are integrating Glogster EDU's resourceful platform to make traditional learning more dynamic, more interactive and more in tune with learners today. Most importantly Glogster EDU is FUN for teachers and learners alike!

Do not train a child to learn by force or harshness; but direct them to it by what amuses their minds, so that you may be better able to discover with accuracy the peculiar bent of the genius of each.

Using PBworks in Individual Classrooms

PBworks in your Classroom

Bring your classroom into the 21st century by encouraging critical thinking and real world communication.

With an online workspace, students are engaged outside the classroom, parents remain involved, and school resources are always accessible.

Basic classroom workspaces are free; premium workspaces start at just $99/year.

What can you do with a Classroom Workspace?

- **Class Resources** - Publish class notes, PowerPoint lectures, schedules and policies; show off examples of great student work.
- **Group Projects** - Build collaborative pages, start discussions and encourage comments.
- **Parent Outreach** - Keep parents involved. Post assignments, key dates and volunteer lists. All available at home, from work, or anywhere.
- **Student Portfolios** - Give students their own page to post content, upload homework, and share their work.
- **Expand Horizons** - Share and interact with other classrooms or groups, across town or around the world.

"We needed to enhance opportunities for research, writing, and editing for a real life audience and in authentic situations."

Learn how Baltimore County Public School District rolled out PBworks to over **103,643 students** and **8,850 classroom teachers**.
