

## Study Skills (Intervention) 9

Welcome to the new school year. I am looking forward to a productive year with your student. My priority is to partner with you in guiding your child to become a more independent learner and self-manager, through organization, perseverance, study skills, and self-discipline.

This class is designed to assist students who need help with organization, and completing assignments from core classes, due to needing more clarification. **This is not a class that takes the place of doing homework at home.** Both myself and the Academic Tutors will assist in clarifying instructions, reviewing a math concept, etc.

Because this is a skills class, there will be no homework assigned by me. The grade for this course is solely based on classroom participation, attendance, and punctuality.

### Grading breakdown:

3 points per day (entered weekly on AERIES/ABI) are awarded for:

- 1 point for being here on time
- 1 point for working on task for the whole period
- 1 point for agenda/backpack/binder in order
- An excused absence will receive credit for the day

If your child has no missing assignments in core classes, they will be working on the following:

- Reviewing math concepts
- Re-reading of current lessons in core classes
- Studying for upcoming assessments
- Focused note taking
- Upcoming projects/reports
- Organization of binder/backpack

**I encourage you to frequently look at your child's grades on AERIES/ABI Portal to stay on top of anything that is missing, as well as, becoming an "Observer" in your student's Canvas Courses. Directions for both can be found on the MVUSD website under "Parents"**

My contact information is as follows: (951) 894-5750 ext.6606 (goes to voicemail during school hours) or [aclay@murrieta.k12.ca.us](mailto:aclay@murrieta.k12.ca.us)

Please discuss this information with your child, and sign/return the bottom portion.

Thank you!

Angie Clay
