Embedding Your Twitter Feed Tutorial

Step One: Select "Resources" from the sidebar of your Twitter page
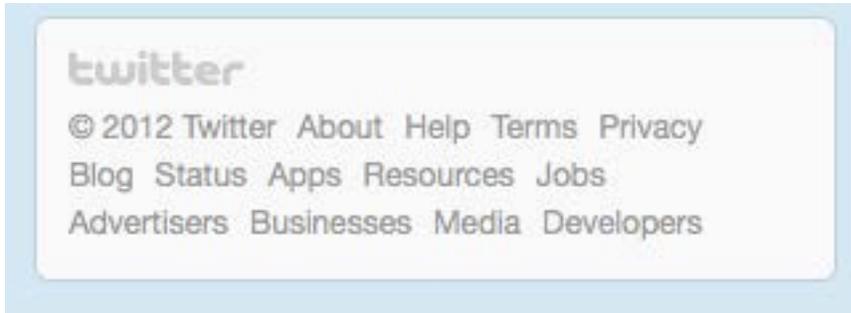

Step Two: Select "Widgets" from the Twitter Resources page

Step Three: Select "Widgets for My Website" from the Twitter Widget page

Step Four: Select "Profile Widget" from the Select Your Widget page

Step Five: Customize your Profile Widget's appearance and size as desired

Step Six: Test your settings, and, if everything appears as desired, click "Finish and Grab Code"

Test settings   Finish & Grab Code

Step Seven: Copy the code so that you can paste it into your Schoolwires editor

```
<script charset="utf-8"
src="http://widgets.twimg.com
/j/2/widget.js"></script>
<script>
new TWTR.Widget({
  version: 2,
  type: 'profile',
  rpp: 4,
  interval: 30000,
  width: 250,
  height: 300,
  theme: {
    shell: {
      background: '#333333',
      color: '#ffffff'
    },
    tweets: {
      background: '#000000',
```

Copy and paste this code into an HTML webpage

OR

Step Eight: Open your Schoolwires Site Manager, and on the page editor where you want your Twitter feed embedded, select "HTML" view

Normal   HTML   Preview   <t
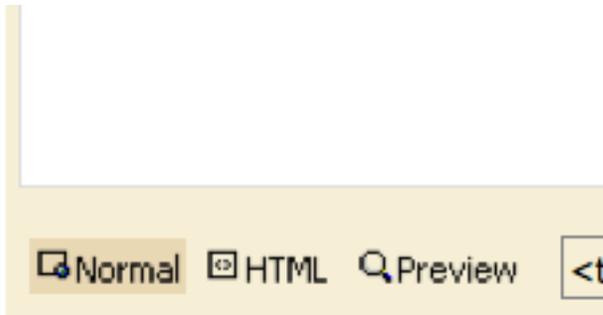

☑ **Activate on my page**

Step Nine: Paste the Twitter HTML code into your page at the desire location and Save changes.
