

DEAR PARENT/GUARDIAN,

Your child has been registered in Think Through Math (TTM) to further support the new state standards and SAT. Per TTM recommendation, Math I students *shall* pass two lessons each week. Students may also use TTM as a tool to accelerate in meeting standards of Math I.

Think Through Math personalizes student learning with unprecedented levels of differentiation, explicit instruction, meaningful practice, unparalleled motivational tools, and unlimited access to LIVE, state-credentialed teachers (including Spanish-speaking teachers).

Because Think Through Math is web-based, your child can access the program from any computer that is connected to the Internet, whether at school, home, or the library. The program is proven to increase math proficiency when implemented **2 to 3 times each week or about 90 minutes each week**. A few recommendations:

1. Encourage participation. The more time your child engages with the program, the more they will experience success and the more they will learn.
2. Encourage thoughtfulness. The program provides constant support and immediate feedback, especially in those places where students tend to struggle.
3. Take time to review the dashboard with your child. Discuss lessons completed, lessons passed, and points earned. Remind your child that hard work pays off.
