Art I: Creative Letter Collage

Art II: Creative Letter Collage

Art III: Creative Letter Collage

As distance learning is continuing to roll on I wanted to give an opportunity to those who have completed the assignments but would like to raise their grade a little more. There is an "EXTRAS" section on the class website where any of those activities can be completed for extra credit. Again, this is for those who have completed all assignments given during distance learning that are looking to increase their grade.

Have a great week!
