

MURRIETA VALLEY HS NIGHTHAWK NEWS

NOVEMBER 2020

Keeping our families connected

Letter From Our Principal

Dear Parents and Students,

We have entered the final six-week grading period of the first semester. As we enter the home stretch, we strongly encourage students to participate in office hours from 1:15 to 2:30 Tuesday through Friday, get caught up on assignments and keep cameras on during online classes.

The registration window for second semester was bumped back until further notice. Our school district is working on a details to, hopefully, provide a hybrid option in January and want to present a very clear plan to families before they are asked to make a decision. As always, look to your Aeries Communications for the most recent information and updates.

Many of our students are flourishing with online schooling, but we know that many are struggling. Our teachers are working hard to make connections. Our management team has made personal contacts with more than 800 students to encourage them academically. We have made many home visits to support students who are struggling, and celebrating many students for their successes.

We currently have some cohorts of students accessing campus. The library remains open Mondays and Thursdays for student textbook and device checkout from 7:30am to 2:30pm.

We are in this together. Together We Soar.

Doing it the R.I.T.E. Way (Respect, Integrity, Teamwork, & Excellence),

Dr. Mark Pettengill, Principal

Murrieta Valley High School

SEL NEWSLETTER

ANXIETY

Anxiety is a mental and physical reaction to perceived threats in our environment. In small doses, anxiety can be helpful as it can protect us from danger. But when anxiety is too severe or occurs too frequently, it can become debilitating.

TYPES OF ANXIETY

Generalized: excessive amount of anxiety or worry in several areas

Phobias: very intense fear of a specific situation or object which is out of proportion to its actual threat

Panic: extreme anxious response where a person experiences a panic attack

CYCLE OF ANXIETY

Anxiety drives people to avoid things that scare them. When a "scary" thing is avoided, there is an immediate but short-lived sense of relief. However, the next time a similar threat arises, it feels even scarier, creating a harmful cycle of avoidance and worsening anxiety.

The Advanced Placement Readiness (APR) program provides supplemental instructional support to current and potential AP students in the following courses:

- AP Biology
- AP Calculus AB
- AP Chemistry
- AP Computer Science Principles
- AP English Language
- AP English Literature
- AP Human Geography
- AP Physics
- AP Statistics
- AP US History
- AP World History

The APR program also provides high level professional development for current and potential teachers of AP courses in STEM and Humanities areas. AP teachers involved in APR will participate in course-specific professional learning that includes observing and interaction with master teachers and engaging in professional networking that promotes best practices and rigorous AP instruction.
