

Bugz

(Intro Song)

Honeybee- #1 Brantley

Ladies and Gentlemen, boys and girls!

Katydids and Katydads!

We hope you will enjoy our show.

It's the best we've ever had!

Ladybug-#1 Kalyn

You're probably wondering what we are,

Dressed up with antennas and wings.

Mostly we're bugs, some spiders and ants
and other squirmy things.

Honeybee#2- Giovanni

I'm a little Honeybee

As sweet as I can be.

Yellow Jacket#1- Maya

I am a Yellow Jacket,

You don't want to mess with me!

Gypsy Moth#1-Kayla

I'm a sassy Gypsy Moth.

How do you like my spangles?

Horsefly-Jacob

I'm a Horsefly and I hurt
anyone who with me tangles.

Monarch Butterfly-Devyn

I'm a Monarch Butterfly,
The most beautiful in my section;
I became the loveliest through "Natural Selection."
(All bugz say....."Natural Selection")

Maggot -Jaxxon

I'm a maggot!

Army Ant#1-Ethan (Simmons)

You see, we are all kinds of bugs and flies,
mosquitoes and even cockroaches.
Moths and ants, crickets and look,
A dragonfly approaches!

Dragonfly-Audrena

That's right. I am a Dragonfly,
I may look rather odd.
I've just gone through metamorphosis
For I'm an arthropod.

Maggot-Jaxxon

I'm a maggot!

Army Ant #2-Kade Chamber

We're bedbugs and termites,
Glow Worms and bees,
And even a head full of lice! (Everybody scratches
head)

Maggot- Jaxxon

We're wood ticks and beetles,
Silk worms and fleas,
And except for that Stink Bug, We're nice!

Firefly#1-Kaden Ramirez

As I was eating some cotton today
I got very excited.
I heard they are having a picnic
And all of us are invited!

(song: Picnic)

Flipping Beetle-Sultan and Ethan (Fitch)

This is so exciting,
I love to plan a trip.
A picnic is so inviting
I feel like I could flip! (Flip)

Army Ant#3-Archer

Are you sure we've been invited
to the picnic by the tree?
The last time we showed up,
They tried to step on me! (stomp foot)

Lady Bug#2-Natalie

Oh I'm sure that we're invited.
I discussed it with the planners.
The problem is last time we went
You didn't mind your manners! (Pointing at the
Bugs)

Lady Bug#3- Daphni

Mind my manners! I do declare!
Now what did you expect?
I think I acted perfectly,
After all, I am an insect!

Lady Bug#4-Nikkie

Having good manners is important you know,
to be a welcomed guest.
You have to learn to present yourself,
Your very, very, best!
(After Lady Bug says: Your very, very, best!)

Caterpillar#1-Georgie

What kind of manners are right for a bug?
Does anybody know?
We ought to learn how to behave ourselves
Before it's time to go!

Army Ant#4-Max

You have to crawl on everything,
Go where they don't expect you.
You must show up quite suddenly, (jump at
audience)
Be quick, or they'll detect you!

Army Ant#5-Sebastain

Wait til they have their food in place
And are settling down just right.
Just when they think "how pleasant this is,"
Give them your very best bite! (Open mouth wide
and bite)

Bumblebee#1-Cody

Just try to be as sweet as me
And don't hurt anything!

Caterpillar#2-Maggie

Before we go, I think it's time
to get some free advice.

The Lady Bugs are so refined,
They know how to act nice.

(second song-Be a Lady)

Lady Bug#5- Bailey

Well, now that we know how to act,
It must be time to go.

Line up now every buggy
So we travel in a row.

Bumblebee#2-Junier

The picnic is beneath a tree
There in the city square. (pointing)
They're having plenty of food to eat
and plenty of grub to share.

Firefly#2-Aiden

I hope they have fried chicken today (rubbing belly)
And Jello in a bowl!

Gypsy Moth #2- Maleah

I hope they have cheese soufflé, And tuna casserole
(everybody says, "YUM")

Ladybug#6-Morgan

All this talk of food is great.
I can't wait to get started.
We'd better go before it's too late,
The gnats already departed! (hand above eyes
searching for them)

Lady Bug#7-Isabella and Guilia

But how are we to get there,
I ask with all my might?
The city park is far away, (pointing)
It's bound to take all night.
(after Lady Bug says: It's bound to take all night)

Army Ant#6-Benjamin

Oh dear! I never thought of that.
And I don't like the dark.
You never know what's lurking there
Around that city park!

Caterpillar#3-Sophia

The fireflies will help us,
They always like to shine,

And with the glow of their bright tails
All will be just fine.

(song: Firefly)

Lady Bug#8-Abigail

Thank you, fireflies, my friends,
You led us here so brightly.
We do appreciate your help,
We do not take it “light-ly.”

Army Ant#7-Calvin (pointing)

Look at all that food my friends,
Just see what we’ve discovered.
It must be almost time to eat
Since they’ve left it all uncovered.

Army Ant#8-Cosmos(Gabe)

(rubbing hands together)
I see fruit and corn and muffins there
And even a cherry pie!
A turkey with it’s stuffing bare,
And cheese whiz spread on rye!

Firefly#3-Noah

They’ve spread it right there on the ground,

We won't even have to climb!
Come on Bugs, let's do our thing!
At last it's supertime!

Army Ant#9-Logan and Isaac

But wait, we need a battle plan
Before we have our snack.
Better call out the Army Ants
To synchronize our attack!

(song : March of the Army Ants)

Lady Bug-#9- Aubrielle (hands on cheeks)

Oh dear, we have a problem here,
The Stink Bug came as well!
He'll ruin all these wonderful foods
With his horrendous smell!

Army Ant#10-Jionni

That Stink Bug isn't welcome here,
He's such an old freeloader.
And everywhere he passes by,
He leaves a terrible odor.

Lady Bug#10-Jenisa

Someone has to set him straight
And do so very quick!
That awful smell that he creates
Is going to make me sick! (holding stomach)

Caterpillar#4- Roselynn (holding nose)

Stink Bug, you have got to go!
You're stinkin' up the place.
We'd just as soon you left the show
And never show your face!

Stink Bug-Luca

I know I'm not the sweetest thing
That ever graced your nose.
But what am I to do for lunch
Go hungry? I suppose!

Yellow Jacket# 2-Allyson

There's just not room for all of us,
Not in this neighborhood.
We'd just as soon you went away
And stay away for good!

Stink Bug-Luca

You really are too mean to me,
Your manners send me reeling.
You had to hit me where it hurts
And now you've hurt my feelings! (cry)

Firefly/Nice Bug-#4-Dayne

Don't cry little Stink Bug
It will all work out for you.
Listen to the caterpillars,
They have good words for you!

(song: Things Change)

Stink Bug-Luca

Your wings are just so beautiful,
Like angels or even birds.
Thank you for your gentle thoughts
And most inspiring words.

Gypsy Moth#3-Czarina

I thought until I got an answer,
I prayed 'til I almost popped.
I think I have a way to help
Until the smell has stopped!

Bumblebee#3-Katelyn

That's the Gypsy Moth
Who has come in off the bench!

Tell us what to do wise one
To save us from this stench!

Bumblebee#4-Melanie

What we need is an even stronger smell,
a more appealing scent.
Perhaps a flower on each lapel
Would make us more content!

Beetle-Chiara

Well, things are certainly sweeter now,
The smell is much more handle-able.
I'm ready to get some food near me
And dig in with my mandibles.

Gypsy Moth #4-Rhiannon and Jazlene

Now we can all get a bite
From someone's picnic plate!
Time to whet our appetite,
Come on! Let's celebrate!

(song: Picnic)
