# 2021 COVID-19 School Guidance Checklist

Name of Local Educational Agency or Equivalent: Murrieta Valley Unified School District

Number of schools: 19

Enrollment 22,801

Superintendent (or equivalent) Name: Patrick Kelley

Address: 41870 McAlby Court

Phone Number: (951) 696-1600

Murrieta, CA 92562

Email: jadiaz@murrieta.k12.ca.us

Date of proposed reopening:  
To be determined based upon reaching

case rate and tiered assignments.

County: Riverside

Grade Level (check all that apply)

TK  2<sup>nd</sup>  5<sup>th</sup>  8<sup>th</sup>  11<sup>th</sup>

K  3<sup>rd</sup>  6<sup>th</sup>  9<sup>th</sup>  12<sup>th</sup>

1<sup>st</sup>  4<sup>th</sup>  7<sup>th</sup>  10<sup>th</sup>

Current Tier: Purple  
(please indicate Purple, Red, Orange or Yellow)

---

Type of LEA: Public School

This form and any applicable attachments should be posted publicly on the website of the local educational agency (or equivalent) prior to reopening or if an LEA or equivalent has already opened for in-person instruction. For those in the Purple Tier, materials must additionally be submitted to your local health officer (LHO), local County Office of Education, and the State School Safety Team prior to reopening.

The email address for submission to the State School Safety for All Team for LEAs in Purple Tier is:

[K12csp@cdph.ca.gov](mailto:K12csp@cdph.ca.gov)

**LEAs or equivalent in Counties with a case rate  $\geq 25/100,000$  individuals can submit materials but cannot re-open a school until the county is below 25 cases per 100,000 (adjusted rate) for 5 consecutive days.**

## For Local Educational Agencies (LEAs or equivalent) in ALL TIERS:

I, Patrick Kelley, post to the website of the local educational agency (or equivalent) the COVID Safety Plan, which consists of two elements: the **COVID-19 Prevention Program (CPP)**, pursuant to CalOSHA requirements, and this **CDPH COVID-19 Guidance Checklist** and accompanying documents,

which satisfies requirements for the safe reopening of schools per CDPH [Guidance on Schools](#). For those seeking to open while in the Purple Tier, these plans have also been submitted to the local health officer (LHO) and the State School Safety Team.

I confirm that reopening plan(s) address the following, consistent with guidance from the California Department of Public Health and the local health department:

- **Stable group structures (where applicable):** How students and staff will be kept in stable groups with fixed membership that stay together for all activities (e.g., instruction, lunch, recess) and minimize/avoid contact with other groups or individuals who are not part of the stable group.

Please provide specific information regarding:

How many students and staff will be in each planned stable, group structure? (If planning more than one type of group, what is the minimum and maximum number of students and staff in the groups?)

The Murrieta Valley Unified School District (MVUSD/district) has developed protocols that each school site will be required to follow when students and staff are permitted to return to campus in a hybrid learning environment. It is important to note all students WILL NOT be on campus at the same time to accommodate physical distancing requirements and provide time for intermittent cleaning and disinfecting. Classes have been built both for in-person as well as virtual instruction to ensure stable classroom groups based upon classroom space to ensure physical distancing. In-person classes shall be no larger than approximately half the number of students on the traditional roster, not to exceed 17 students, and shall accommodate the six-foot physical distancing requirement. Students and supervising adults in the classroom will stay together for all activities and avoid contact with people outside of their group. MVUSD is committed to returning students to campus in a manner that is safe and in accordance with CDPH and RUHS-PH guidelines. From physical distancing and smaller class sizes, to testing and contact tracing, the following are highlighted elements of how MVUSD will meet CDPH requirements to reduce the impact of exposures.

#### Hybrid Instructional Model

The “Hybrid Model” combines on campus learning and virtual, at-home learning. This model provides students with flexibility to meet their instructional needs and maintain school connections. In the hybrid model, class sizes would be approximately half of the traditional class size.

Elementary students will all attend school virtually on Mondays and in-person on Tuesdays-Fridays in an AM or PM session which is outlined below in Figure 1a. (Families have registered their preference to remain in a virtual environment or attend in person on campus). The morning or afternoon session of students will participate in instruction for 160 minutes daily, with no on campus recess or lunch. There will be no mixing of students from one classroom to another. All activities will take place within the classroom. Classes may take outside breaks on a staggered schedule, but when they do, students will be 6 feet physically distanced and will not interact with other classes of students. Classrooms will have assigned restrooms to utilize during instruction. Teachers will provide instruction for all students on the proper use of PPE, handwashing, and maintaining 6 feet of physical distancing.

When case rates allow, secondary schools will have smaller in-person instructional groups and move from one classroom to another with extended or staggered classroom passing periods to minimize congregating and overcrowding of hallways as practicable. Teachers will deliver instruction to both virtual and in-person students simultaneously, utilizing the schedules outlined in Figures 1b and 1c. (Families have registered their preference to remain in a virtual environment or attend in person on campus). The daily schedule enables all students to remain virtual on Mondays, attend synchronously two days a week, and asynchronously two days a week. This schedule allows for students who choose hybrid to attend smaller, stable classes and to have an opportunity for targeted interventions in the afternoon. There is no scheduled student lunch or break on campus to minimize opportunities of congregating students.

Figure 1a.

Elementary Hybrid Schedule B					
Monday			Tuesday - Friday		
8:00-8:10	Teacher Prep	10 minutes	8-8:10	Teacher Prep	10 minutes
8:10 - 9:10	Live Check-In and Instruction	60 minutes	8:10-8:15	AM Arrival	
9:10 - 9:30	Break	20 minutes	8:15 - 10:40	AM Class	
9:30 - 11:20	Prep	110 minutes	10:40 - 10:50	AM Dismissal	160 minutes
11:20 - 11:50	Lunch	30 minutes	10:50 - 11:10	Break	20 minutes
11:50 - 2:00	Prep	130 minutes	11:10 - 11:45	Lunch	35 minutes
2:00 - 3:00	Weekly Engagement and Student Follow-Up	60 minutes	11:45 - 12:20	Prep	35 minutes
3:00 - 4:00	Staff Meeting/PLC/Prep as per Staff Development Calendar	60 minutes	12:20-12:25	PM Arrival	
			12:25-2:50	PM Class	
			2:50-3:00	PM Dismissal	160 minutes
		250 minutes			45 mins per day

MVUSD will implement other means to ensure classroom stability and reduction of risk including:

- No sharing of school supplies such as pencils, paper, crayons, scissors etc.; each student will be provided their own supply bag of materials.
- Field trips, school wide assemblies, and events have been suspended.
- Volunteers and parents will not be permitted on school grounds.
- Weekly 'Grab-n-Go' Meal Packs will continue to be distributed every Thursday.

If you have departmentalized classes, how will you organize staff and students in stable groups?

At the secondary level, students in departmentalized classrooms will access instruction just as any scheduled classroom period, however in-person or virtual extended-day opportunities will be made with small group cohorts to conduct essential hands-on activities and/or assessments.

If you have electives, how will you prevent or minimize in-person contact for members of different stable groups?

Due to classroom blending and the need for group instruction, performing arts electives will remain in the virtual environment until further notice.

■ **Entrance, Egress, and Movement Within the School:** How movement of students, staff, and parents will be managed to avoid close contact and/or mixing of cohorts.

All schools have scheduled arrival and dismissal time to facilitate social distancing and orderly entrance to and egress from school. Gates and locations on campus will be assigned to families to physically distance students during arrival and departure. Upon arrival, students will walk through their assigned gates and go directly to their classroom to minimize the congregation of students. Each school has systems in place to assist students at arrival and dismissal.

Parents will not be allowed to escort their students on or off campus. Special accommodations may be made for students with disabilities. Clear signage in English and Spanish have been placed throughout school campuses to promote foot traffic flow and 6 feet physical distancing while walking to and from classrooms.

Specific plans are in place to ensure safety during bus transportation. Bus schedules will be modified to meet 6 feet physical distancing guidelines to the extent practicable. Other protocols are in place including hand sanitizer as students and adults enter the bus, mask or face coverings will be required (unless there is a medical exemption), windows will be open (weather permitting), and each bus will be disinfected between each route. The bus will be loaded from the back first and unloaded from the front first to further minimize student-to-student contact.

■ **Face Coverings and Other Essential Protective Gear:** How CDPH's face covering requirements will be satisfied and enforced for staff and students.

Face coverings will be utilized in accordance with CDPH guidelines. Staff and persons 2 years of age and older must always wear face coverings while on school district property, including individual school sites and office buildings, and may be temporarily removed while working alone in an office, eating, drinking, and during recreation while practicing CDPH guidelines. Masks must again be worn after eating, drinking, and recreation. The face coverings must cover the mouth and nose.

**Exemptions from wearing a face mask include:**

- Individuals with a verified Medical Exemption Form with mental health or disability that prevents wearing a face mask.
- Individuals with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated, or otherwise unable to remove a face mask without assistance.
- Individuals who are hearing impaired or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication.

In limited situations, where cloth face coverings cannot be used or worn by those with special needs or those students and staff who fall under an exemption, a face shield with a cloth drape should be worn while on school district property, including individual school sites and office buildings. When a face shield is used instead of a cloth face covering, the wearer must maintain a physical distance of 6 feet from others. A face shield should not take the place of a face covering.

Face coverings are not a substitute for physical distancing. Age-appropriate face covering training for students will be made available upon the return to in-person instruction.

- **Health Screenings for Students and Staff:** How students and staff will be screened for symptoms of COVID-19 and how ill students or staff will be separated from others and sent home immediately.

The health and safety of MVUSD staff and students is of the utmost importance. As a district, our goal is to mitigate and reduce the transmission of COVID-19 using best practices and medically sound guidance from the CDC, CDPH and RUHS-PH. Below are the general guidelines and/or actions for the health and safety of all district employees and students.

Each site has a trained health technician and an assigned school nurse to recognize and care for students and employees who are displaying COVID-19 symptoms. The following wellness screenings are expected.

### **Screenings at Home**

- Families are expected to screen students prior to school for COVID-19 symptoms. Parents/guardians must complete daily health screenings for their student(s) prior to arriving at school to verify that he/she is not showing symptoms of COVID-19. If the student(s) displays any COVID-19 symptoms, parents/guardians must keep their student at home.
- Employees will complete a daily symptom tracker prior to reporting to work. Each employee will conduct a daily health self-screening before reporting for their assigned duties. If any employee has a new onset of COVID-19 symptoms, they are to stay at home and input the reason for the absence in the absence management system. The self-screener results will be reported daily to site administration and appropriate health staff. Employees exhibiting any COVID-19 symptoms must declare so on the symptom checker and meet the criteria to return to work. If there is a positive COVID-19 case, the Lead Nurse or designee will notify Riverside University Health Systems-Public Health (see Contact Tracing for more detail). Employees will adhere to RUHS-PH guidelines with regards to return to work, quarantine, or isolation.

### **Process at School**

- Parents: Will be notified immediately if their student develops COVID-19 symptoms and the student will be placed in an isolation room. Parents will need to pick up their student immediately.
- Visitors: Only visitors who are essential to the operations of the school may come onto campus during the school day. Visitors must complete a symptom screening when entering the campus.
- A student who has a health issue unrelated to COVID-19 will report to the Health Office.
- Students who do not feel well will be escorted to the isolation room for evaluation.

### **Procedure for Sending Students to the Isolation Room**

- Student notifies any employee that they are not feeling well.
- Employee contacts the isolation room and/or walks the student over to the isolation room.
- A mask will be given to any student who does not have one.

### **Isolation Room Procedure**

- Upon arrival, the nurse or designee, if nurse is not available, will begin evaluation and check-in process.
- Student will be asked clarifying questions and have temperature taken.
- Nurse/designee will call the student's parent/guardian to come and pick the student up immediately.
- Nurse/designee will wait with and monitor the student until parent/guardian arrives.
- Nurse/designee will verify parent/guardian and check student out. Parent will be provided "COVID-19 Return to School Instructions."

- Nurse/designee will document in the student information database the student's medical symptoms.
- Teachers and appropriate school staff will be notified.

Note:

- Students who display a temperature or any COVID-19 symptoms will follow the established "COVID-19 Return to School Instructions." The nurse will notify appropriate district personnel and monitor/follow-up on any students with COVID-like symptoms to ensure they remain home an appropriate length of time or if tested positive, contact tracing will begin.
- In the event a student has notified their parent that they are not feeling well, and the parent arrives to check the student out, the student will be escorted to the isolation room to be assessed before being released to the parent/guardian. The nurse/designee will meet with the student, take their temperature, and ask clarifying questions. If student has a temperature or COVID-19 symptoms, they will follow the established return to school guidelines.

■ **Healthy Hygiene Practices:** The availability of handwashing stations and hand sanitizer, and how their safe and appropriate use will be promoted and incorporated into routines for staff and students.

Hand sanitizer and handwashing stations will be strategically positioned throughout the entire campus. Hand sanitizer stations will be in each classroom to ensure that staff and students have easy access. All water fountain usage will be prohibited and capped off to prevent use. Cup dispensers and cups will be provided to allow students to get water from the classroom sinks. Students will also be allowed to bring their own water bottle for use during the school day.

■ **Identification and Tracing of Contacts:** Actions that staff will take when there is a confirmed case. Confirm that the school(s) have designated staff persons to support contact tracing, such as creation and submission of lists of exposed students and staff to the local health department and notification of exposed persons. Each school must designate a person for the local health department to contact about COVID-19.

**General COVID-19 Positive Case Protocol**

MVUSD's Health and Safety Task Force has developed protocols based on CDPH guidance to ensure the school community is following best practices to mitigate the risk of COVID-19. The Health and Safety Task Force has developed a system to document and track positive cases and exposures. Designated employees have been assigned to oversee identification of positive cases, contact tracing, and submission of exposed students/employees. Below is a summary of the protocol MVUSD has in place for responding to positive COVID-19 cases in a school setting:

1. **Coordinate with Local Health Officials:**  
When there is a positive COVID-19 case, the district will notify Riverside University Health Systems-Public Health within 24 hours, including the Riverside County Contact Line List, to assist our course of action.
2. **Contact Tracing and Quarantine:**  
MVUSD has a systematic procedure for the identification and tracing of individuals

who have exhibited COVID-19 symptoms, reported a positive COVID-19 case, or reported a possible COVID-19 exposure. The procedure is outlined below:

- Notification of potential COVID-19 exposure/symptoms/confirmed case may come through a variety of methods including self-reporting, parent report, supervisor report, absence information, or RUHS-PH.
- Staff member or student will be required to stay at home until contacted by a district designee to determine next steps.
- Initial contact with person under investigation (PUI) will be done as soon as reasonably possible by one of the following staff members: district-assigned COVID-19 contact tracer, lead nurse, site nurse, or other designated staff. The purpose of this contact will be to verify positivity and determine onset of symptoms, level of risk, and actions that needs to be taken at that time.
- The designee who conducts the initial contact will utilize the district-developed COVID-19 decision tree to guide next steps, referral for COVID-19 testing, isolation, quarantine, and/or contact tracing of possible exposures.
- If a positive COVID-19 case is identified, the following notifications will occur: RUHS-PH through proper channels, Human Resources, custodial staff to disinfect/sanitize affected areas, and site administration. Notification to RUHS-PH will follow guidelines for contact tracing including utilization of the RUHS-PH COVID-19 Contact Tracing Line List within 24 hours. All communications must maintain confidentiality.
- Communications will include notifications to impacted individuals (staff or students) of potential COVID-19 exposure. For staff members, the notifications must include COVID-19 related benefits and options. Staff and parents of impacted students will be provided the "RUHS-PH COVID-19 Exposure Notification in an Educational Setting".
- In consultation with Cal/OSHA RUHS-PH, cohorts and/or schools will move to virtual learning as necessary to further prevent transmission opportunities. Per CDPH guidance, closure may be appropriate when there are 3 or more epidemiologically linked cases at a school within a 14-day period, depending on the size and physical layout of the school. Communications are implemented to inform students, parents, teachers, staff, and the community regarding potential classroom or school closures.
- These procedures are logged and maintained in a confidential spreadsheet. The documentation includes exposure and infection information to monitor workplace outbreaks. The spreadsheet includes the following: Individual's name, position, email, worksite location(s), specific concern, relevant dates, and times of onset of symptoms or the test results, any on-campus contacts beginning 48 hours prior to the onset of symptoms or testing date (noting all high-risk and low-risk exposures), and cleaning/sanitization.

Overview of MVUSD's communication structure and course of action when a positive COVID-19 case has been confirmed.

- Positive COVID-19 case information obtained:
  - Who is positive?
  - Who did the individual have contact with in the previous 2 days since symptoms starting or a positive test, whichever is earlier?
  - When was the individual last at worksite and when were they tested?
  - Where was the individual in the previous 14 days since positive test?
- Reports/Emails:
  - All site staff notifications
  - Department notifications
  - Riverside County
  - Third Party Administrator (Keenan)
  - Cal/OSHA- hospitalizations or deaths
  - People identified as positive or exposed

- Records and Tracking
  - Record information on spreadsheet

Courses of Action for On-Site Positive COVID-19 Cases:

- Letters of notification emailed within 24 hours.
  - Positive Cases:
    - All site staff, known staff on site, and union presidents.
  - Three positive cases within 14 days or 20 positive cases within 30 days at each worksite.
    - All site staff, known staff on site, and union presidents.
    - Additional notice regarding testing requirements to each site.

Department Notification Workflow:

- Maintenance:
  - Site and room number for cleaning.
- Senior Cabinet:
  - Information about site, room number, and cohort.
- Transportation:
  - Site and cohort (if applicable) for cleaning and schedule changes.
- Facilities:
  - Site information to notify contractors within 24 hours.
- Special Education
  - Site information to notify contractors within 24 hours.

Notifications to Agencies:

- Riverside County
  - Staff and student positive cases and exposures.
  - Contact tracing form sent within 24 hours.
- Third Party Administrator (Keenan)
  - Staff positives and site(s) in the last 14 days.
  - Online form within 72 hours.

Notifications for Work-Related Positive Case(s)

- Cal/OSHA
  - Hospitalization or deaths.
  - Phone call within 24 hours.

Notification for On-Site Positive Case(s)

- All positive staff, students, and identified exposures.
  - Phone call followed by email within 24 hours regarding isolation or quarantine by school site staff.

■ **Physical Distancing:** How space and routines will be arranged to allow for physical distancing of students and staff.

Please provide the planned maximum and minimum distance between students in classrooms.

Maximum   6 or more   feet

Minimum   6   feet. If this is less than 6 feet, please explain why it is not possible to maintain a minimum of at least 6 feet.

Physical distancing of 6 feet will limit the spread of the virus. Prior to returning students on

school sites, the MVUSD Health and Safety Task Force has audited school sites to ensure 6 feet of physical distancing is provided in all classrooms, common areas, and school offices. Schools will adhere to the following strategies to maintain 6 feet physical distancing:

- Implementation of instructional model choices, where families choose to remain virtual for the remainder of the year, thus reducing the number of students physically at a school, and thereby making 6 feet physical distancing possible at all TK-5 schools.
- Implementation of elementary AM/PM schedules, reducing the number of students per class.
- Teacher and classroom desks have been arranged 6 feet apart.
- Plexiglass desk partitions are in each classroom at the teacher's desk and student desks.
- Areas of higher traffic, such as the front office have plexiglass barriers.
- Elimination of in person school-wide meetings, group activities, field trips, and assemblies. All these activities will be held virtually.
- Directional signage is posted throughout school and district property.
- Floor markers placed throughout school and district sites.
- Six feet physical distancing signs posted throughout school sites. All staff work areas have been modified for individual use and any furniture or stations have been physically distanced from one another.
- School PA systems have looped public safety announcements, reminding students and staff to maintain 6 feet of physical distancing, face covering mandates, and the importance of washing and sanitizing hands.

■ **Staff Training and Family Education:** How staff will be trained, and families will be educated on the application and enforcement of the plan.

All employees have been trained in the mandated safety guidelines and additional COVID-19 training. Employees completed the COVID-19 courses in the annual Keenan Safe Schools trainings administered at the beginning of the school year. The MVUSD Health and Safety Task Force has created a guidebook specific to 'Resuming Specialized In-Person Services'.

Health and safety protocols and procedures will be provided to students, parents/guardians, and staff prior to in-person instruction to include:

- Proper use of PPE including face coverings
- Handwashing and sanitizing procedures
- Safety policies and procedures
- Social distancing expectations
- Ingress and Egress
- Health screening
- COVID-19 signs and symptoms
- Protocols for reporting COVID-19 and illnesses

Informational links and training resources are posted on the district's website pertaining to COVID-19 safety, in addition, mental health resources and guidance directly related to coping with stress and anxiety is available for all students, parents and employees.

Training and informational resources include, but are not limited to...

- How to talk to youth about COVID-19
- The Novel Coronavirus just for kids
- Managing Stress
- Back to School Safety during the COVID-19 Pandemic
- Returning Students to Campus in a Pandemic Environment Guidebook

■ **Testing of Staff:** How school officials will ensure that students and staff who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic staff testing cadence.

Staff asymptomatic testing cadence. Please note if testing cadence will differ by tier:

The district began surveillance testing of employees December 2020 and will conduct testing per CDPH guidelines. The district has contracted with Curative and has successfully implemented a testing strategy. This same process will be scaled up to support the increased need for testing required for on-site instruction. All district nurses have been trained to administer the Curative COVID-19 PCR tests to staff. Additional staff members have been hired to meet increased testing demands.

The following testing cadences for staff will be followed as required by the State.

MVUSD Current Staff Testing Strategy:

Purple Tier CR >14: Symptomatic and response testing plus weekly asymptomatic PCR testing

Purple Tier CR > 7-13.9: Symptomatic and response testing plus asymptomatic testing every 2 weeks

Red Tier CR 4-7: Symptomatic and response testing plus every 2 weeks asymptomatic testing

Orange and Yellow Tier: Symptomatic and response testing

The School Board has adopted policy 4119.41(a), which requires all eligible staff to participate in COVID -19 testing. Staff may choose to seek testing from a private health care provider or on site by district personnel. If an employee fails or refuses to submit to COVID-19 testing, he/she will not be permitted to report to work or enter the worksite.

Additionally, in adherence with Cal/OSHA regulation and the district's CPP, when an outbreak is discovered, the district provides follow up testing to all individuals at the facility who may have been exposed.

■ **Testing of Students:** How school officials will ensure that students who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic student testing cadence.

Planned student testing cadence. Please note if testing cadence will differ by tier:

The following testing cadences for students, pursuant to parent choice, will be followed as required by the State. Testing will be offered onsite or students will be referred to their

primary care physician and/or free community testing site. Student testing is dependent upon parental choice therefore any testing cadence may not be achievable. However, the district will engage in documented outreach opportunities on a weekly basis in order to partner with parents in our efforts to comply with the State expected testing cadences described below.

MVUSD Current Student Testing Strategy:

Purple Tier CR >14: Symptomatic and response testing plus weekly asymptomatic PCR testing

Purple Tier CR > 7-13.9: Symptomatic and response testing plus asymptomatic testing every 2 weeks

Red Tier CR 4-7: Symptomatic and response testing plus every 2 weeks asymptomatic testing

Orange and Yellow Tier: Symptomatic and response testing

Regardless of Tier placement, students who are moved to the isolation room during the school day due to symptoms or have a confirmed exposure will be referred to their primary care physician for testing. If a student is symptomatic and is unable to acquire COVID-19 testing, a test will be provided to them at no charge.

■ **Identification and Reporting of Cases:** At all times, reporting of confirmed positive and suspected cases in students, staff and employees will be consistent with [Reporting Requirements](#).

Notifications for COVID-19 Positive Case(s) Workflow:

- Reports/Emails:
  - All site staff notifications
  - Department notifications
  - Riverside County
  - Third Party Administrator (Keenan)
  - Cal/OSHA- hospitalizations or deaths
  - People identified as positive or exposed

Notifications for Work-Related Positive Case(s)

- Cal/OSHA
  - Hospitalization or deaths.
  - Phone call within 24 hours.

■ **Communication Plans:** How the superintendent will communicate with students, staff, and parents about cases and exposures at the school, consistent with privacy requirements such as FERPA and HIPAA.

The Superintendent will work closely with RUHS-PH, MVUSD's Public Information Officer, and MVUSD's Health and Safety Task Force to develop public notifications regarding COVID-19. The district regularly communicates with stakeholders regarding relevant information related to school re-opening and health and safety developments. At all times, student and staff confidentiality will be of utmost importance, and names or other identifying information will not be disclosed per HIPPA and FERPA requirements, while meeting AB 685 and Cal/OSHA Prevention Program requirements.

The district understands that guidance from public health and/or other regulatory agencies may shift over time and will be prepared to implement any new guidance appropriately and timely.

- **Consultation: (For schools not previously open)** Please confirm consultation with the following groups

- Labor Organization

Name of Organization(s) and Date(s) Consulted:

Name: California School Employees Association

Date: December 7, 2020, January 15, 2021

Name: Murrieta Educators Association

Date: December 16, 2020, January 19, 2021

- Parent and Community Organizations

Name of Organization(s) and Date(s) Consulted:

Name: Murrieta Valley Council Parent Teachers Association (MVCPTA)

Date: December 15, 2020

*If no labor organization represents staff at the school, please describe the process for consultation with school staff:*
