COMPREHENSIVE HEALTH EDUCATION (continued)

Involvement of Health Professionals

The district's health education program shall be designed to actively involve the community, including professional health and safety personnel, in classroom teaching of health education. (Education Code 51913)

Health care professionals also shall be involved in the development and implementation of the district's health education plan and in course evaluation. Such professionals shall represent, at the district's option, the varied fields of health care, including voluntary collaborations with managed health care and health care providers; local public and private health, safety and community service agencies; and other appropriate community resources. (Education Code 51913)

Health care professionals, health care service plans, health care providers and other entities participating in a voluntary initiative with the district are prohibited from communicating about a product or service in a way that is intended to encourage persons to purchase or use the product or service. However, the following activities may be allowed: (Education code 51890)

1. Health care or health education information provided in a brochure or pamphlet that contains the logo or name of a health care service plan or health care organization, if provided in coordination with the voluntary initiative.
2. Outreach, application assistance and enrollment activities relating to federal, state or county-sponsored health care insurance programs that are conducted by health care professionals, health care service plans, health care providers, and other entities if the activities are conducted in compliance with the statutory, regulatory, and programmatic guidelines applicable to those programs.
