1	Thank you for not just telling us about these strategies, but rather, actually showing them to us as you implemented them throughout the training day!	8/8/2016 10:11 PM
2	I like the video segments. Also, any time I go to a training like this I learn about strategies that I haven't seen before.	8/8/2016 8:39 AM
3	The table talks were most effective.	8/5/2016 9:08 AM
4	I liked that there were useful suggestions and ideas that I can implement immediately into the classroom. Both trainers were personable and helpful.	8/5/2016 6:51 AM
5	The movement strategies were great. There was one idea I heard which was we want 100% of the students focused and then a couple of videos was shown to demonstrate how to redirect an unfocused student. I enjoyed many things about the training. I am looking forward to using growth mindset in my class.	8/4/2016 9:53 PM

2	I would suggest that you explain to veteran teachers that this training is not the same Elements of Effective Instruction that they attended years ago. I think more people would sign up if they knew it wasn't the same old stuff.	8/8/2016 8:39 AM

1	<p>This training was very similar to strategies we discussed in Induction, my Master's Program, professional development trainings, staff meetings, and PLCs. I didn't really feel like I left with any new information, although I did leave with a cute idea for a Growth Mindset activity. I think our district already does a great job of teaching us about Growth Mindset, so it would be more valuable to see different activities that teachers are using in their classrooms. I also liked that the presenters brought in books that could be used to teach Growth Mindset to both adults and children. Collaborating and brainstorming with other teachers to develop Growth Mindset activities would really kick this presentation up a notch (in my opinion).</p>	10/19/2016 1:41 PM
2	<p>I liked learning about the different techniques teachers use to engage their students. We talked about strategies we use and learned about some others through conversation and the presentation. I have four new books coming in that I ordered after this training. I am excited to share with my students.</p>	10/19/2016 1:24 PM

1	The presenters were both lovely and knowledgeable, and I appreciate them taking the time out of their busy schedules to share their ideas with us. I felt as if the delivery of the presentation lacked a personal touch (presenters read word for word off the power point slides), so it was difficult to feel engaged in what we were reading. I think if the training was more interactive, it would be a lot more effective.	10/19/2016 1:41 PM
2	Great training!	10/19/2016 1:24 PM
