1	Very useful information, I had never done screencasting before and I really think I will be able to use it for my classes now. Presenters were very knowledgeable and helpful. I got lots of one on one attention!	10/14/2016 12:42 PM
2	Great reviewing how to set up Haiku classes / blocks and especially glad to learn how to upload videos.	10/11/2016 10:55 AM
3	Sean and Linda did an outstanding job in preparing and presenting all the information. They were very accommodating and professional.	10/10/2016 6:57 PM
4	excellent trainer.	10/10/2016 4:30 PM
5	I would have liked the training to have been more learning specific. While I gained tidbits of information that will help me enhance my Haiku pages for my students, there was not time to dive deeper into the some of the advanced areas (i.e. screencasting, online assignments, etc.) that I am mostly interested in learning.	10/10/2016 3:36 PM
6	I learned a lot about Haiku and am excited to go to 365 next week to learn more about MVUSD's technology	10/10/2016 3:15 PM
7	Linda and Sean are great!	10/10/2016 3:04 PM
8	I loved how we got the opportunity to practice what we learned at our own pace.	10/10/2016 3:03 PM
9	I had a great experience and feel like my time was very well spent. The presentation was very informative and helpful and the trainers were great.	10/10/2016 2:57 PM
10	Presentation was easy to follow & the trainers were great! As a lower elementary teacher, I may have benefited more from this training if it was geared more towards how to use it best in lower elementary. It seemed like a great platform!	10/10/2016 2:18 PM
11	Sean did a great job in explaining the content about blending learning. It was easy to understand.	8/19/2016 11:18 PM
12	I really appreciated the workshop format, as it gave us time to learn something and then immediately practice and apply that knowledge.	8/9/2016 8:57 PM
13	Outstanding. The best I've ever attended	8/8/2016 5:52 PM
14	Great Job	8/8/2016 2:22 PM
15	Both trainers were very helpful and would circulate the room while we were able to navigate on the Haiku program. It was nice to be able to use the program while learning it, getting a hands on experience.	8/8/2016 2:09 PM
16	The presenters were extremely helpful! The training was very good, but it would have been more beneficial if I were able to get in and use my own Haiku and not a guest Haiku	8/8/2016 12:46 PM

Q6 Please share any other feedback.

1	Small number of attendees, but it really helped me personally since I got to monopolize one of the trainers most of the time.	10/14/2016 12:42 PM
2	How much for the headphone sets if we needed to buy for each teacher and 2 class sets for our school? About 200.	10/10/2016 4:30 PM
3	I hope we have more opportunities for this kind of training.	10/10/2016 3:03 PM
4	Overall great workshop, I learned a lot.	10/10/2016 2:57 PM
5	Dream Team of instructors	8/8/2016 5:52 PM
6	The trainers were great about getting us access to Haiku through a "general" access. It would have been nice to have our accounts set up before the module, but I do understand that everyone is busy at the start of the new school year. Thank you! This was really helpful!	8/8/2016 2:09 PM
