

# Summer Learning Support TK-5<sup>th</sup> Grade Resources

Dear Families-

We are grateful that you have chosen to support your child's learning over the summer. Each page below contains fun and engaging ELA and math practice activities in order to keep your child's skills growing throughout our summer break. The pages contain both digital and unplugged resources, so you can balance screen time with more hands-on activities. The final page has a list of login information for easy access to all our district programs.

In addition to these resources, please check out your child's Canvas dashboard for the Family Resource Library, which contains **many more** practice ideas! Here is the link to Canvas: [CLICK HERE](#)

Enjoy this time learning together!

**\*\*All district online programs will be available until approximately the end of July. At that point, you may lose access to them as they are being prepared for use in the new school year.**
