Pine Cone Christmas Tree

Materials:

- A large, open pine cone
- Glitter
- A few cotton balls
- White glue (like Elmer's)
- Dental floss and a needle
- Small beads
- A small bow or star to top off your little tree.

Directions:

- Glue a few cotton balls to the bottom of the pine cone. These look like snow and help the "tree" stand upright.
- Put a little dab of glue at the tips of the pine cone and then sprinkle on glitter.
- String some small beads onto dental floss (about 1 to 1 1/2 ft. or more, depending on the size of the pine cone). To string the beads easily, tie one bead securely to the string. Then give the floss to the child for stringing. Older children can use a needle to help with the stringing. When the stringing is done, tie off the last bead with a knot.
- Wrap the beads around the pine cone and glue them to the tree.
- Top off your tree with a small bow or other decoration.

PARENTS

WINTER PERFORMANCE

When: Wednesday —
December 17, 2014

Where: Avaxat MPR

Rooms 10 & 12 starts at 5:00 pm
Rooms 7 & 11 starts at 6:00 pm

Please come and join us celebrate the Holidays through our children's performances.

Ms. Michelle

Hi, my name is Michelle Rowland. I have worked for the Murrieta Valley Unified School District for five years and have worked for S.E.E.D. for four years. I have worked with children for fourteen years. I am currently working on my Associate Degree and love going back to school. I have two beautiful teenage daughters. My favorite part of working in S.E.E.D. is the wonderful families I get to know and watching the children grow socially and academically from the first day of the school year to the end of the school year. When I'm at home with my family, I like to spend time with my daughters, dogs, reading and anything outdoors.
