

Name _____

Archery Test

TRUE OR FALSE (Please circle the correct answer)

1. TRUE FALSE The arm guard has only one function, to protect your arm from being hit by the string.
2. TRUE FALSE When shooting it is important to maintain a straight hand, wrist, arm, locked elbow, & to keep the shoulder down & back. This pertains to the bow arm.
3. TRUE FALSE It is not necessary to follow through after releasing the arrow to the target.
4. TRUE FALSE When nocking the arrow, keep the point aimed toward the sky.
5. TRUE FALSE If any part of the fletching is embedded in the target or target face, go to the back of the target & pull the arrow through point first.
6. TRUE FALSE If you drop an arrow in front of the shooting line, pull it back with the tip of your bow if you can reach it. If you can't reach it with your bow it's okay to step out & get it.
7. TRUE FALSE Straddle the shooting line so that no archer is standing in front of or behind the others.
8. TRUE FALSE If you do not obey the rules of archery & the teacher of this class, & conduct yourself in a safe manner you will get a grade of F for this unit.
9. TRUE FALSE You use 4 fingers of the string hand to draw & shoot.
10. TRUE FALSE The pre-draw is a very important part of the shooting process.
11. TRUE FALSE After shooting all 6 of your arrows you have shot an end.
