

## **Text Connections:** *The Jungle*

For each question, use evidence from the novel in two thoroughly written paragraphs. Type your response because it will be submitted to Turn It In.

1. **Text-To-Self:** Describe the ways you related to this book. What value was it to you as an individual? This is the most important connection on a personal level.
2. **Text-To-Itself:** Describe the major features of the book's style. This connection is the most directly relevant for success on an AP English Language test.
3. **Text-To-Text:** Explain what connections you see between this book and others you have read in this or any other class in school or as an independent reader outside of school. This connection is a fundamental characteristic of a culturally literate and academically successful person.
4. **Text-To-World:** Explain what connections you see between the important aspects of this book and the world around you. These observations help you develop a "mature academic perspective".
