

READING MUSIC RHYTHMS

BEATS = 1 2 3 4 = 1 2 AND 3 4

EIGHTH NOTES = TWO SOUNDS ON A BEAT!

BEAT = BEAT AND

The diagram illustrates the concept of eighth notes in music. It shows that four quarter notes, each taking one beat, are equivalent to a quarter note followed by an eighth note pair (labeled 'AND'), which also takes one beat. A red checkmark is placed above the text 'EIGHTH NOTES = TWO SOUNDS ON A BEAT!'. Below this, a single quarter note is shown to be equivalent to a quarter note followed by an eighth note pair, with a red arrow pointing to the eighth note. The labels 'BEAT' and 'BEAT AND' are placed under the respective groups of notes.
