

# ADVANCING MUSIC RHYTHMS

8th notes are beamed together in groups of two.  
They have one line hooking them together.  
Sometimes, they are seen beamed together in groups of four.  
As long as there is one beam linking them, they are 8th notes!

An 8th note musical triplet = 3 notes played over 1 count.  
It equals 1 quarter note of music! (TIP: Notice the one beam connecting the 8th notes and the #3 over the top!)
