AM I FEELING...

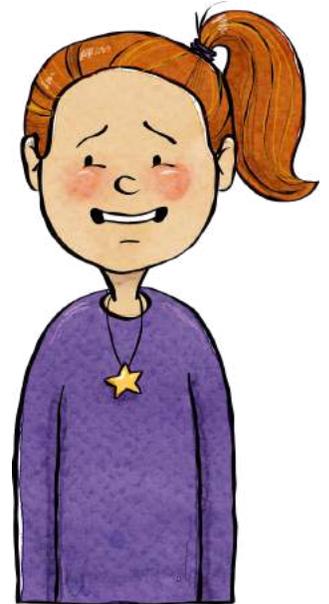

SAD?

STRESSED?

UPSET?

NERVOUS?

HAVE I...

Had enough water? Talked to someone?

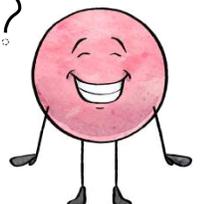

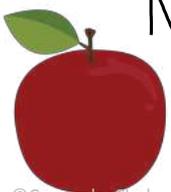

Taken deep breaths? Made a plan?

Had time to myself? Had enough sleep?

Done something creative? Gone outside?

Moved my body? Asked for help?

Eaten enough healthy food?

MAKING A SELF-CARE JAR

WHAT IS A SELF-CARE JAR?

A self-care jar is a jar or container that is full of self-care ideas. When you are feeling overwhelmed, anxious or like you need a little pick me up, you can choose an idea to do from the jar. You can keep your jar anywhere – at school, at home, at work, etc. so that you can access it easily.

HOW CAN I MAKE A SELF-CARE JAR?

You can fill your self-care jar with different ways to take care of yourself. You can write your ideas on paper, popsicle sticks, or even stones. If desired, you can color code them by amount of time they take, or by the type of self-care. Make sure to put a wide variety of ideas in your jar so that you can take care of yourself regardless of how much time you have or how you are feeling.

WHY MAKE A SELF-CARE JAR?

Sometimes, when we feel overwhelmed or stressed, it can be hard to take the next step. We might know that we need to take care of ourselves, but we're not sure how. The self-care jar gives us a fun way to get ideas about what to do. Also, the jar can provide a visual reminder of the need to prioritize self-care.

I CAN BE KIND TO MYSELF

I can make a difference.

I make the world better.

I am enough.

I am important.

I am brave.

I am proud of myself.

I will reach my goals.

I can do hard things.

I can do this.

I am loved.
