

AP Statistics Summer Assignment

Due: First Day of School for the Class----NO LATER (whether you are present or not). You can email me (hnelson@murrieta.k12.ca.us) your work if you want or need.

There are three (3) assignments: **You must do all three assignments**

- #1 Remind 101: Text @vmhsapstat to the following number: 81010. I might be texting you information before first day of school so you need to do this.**

- #2 Find an article that describes an experiment or a statistical study or a statistical survey, READ it, write a summary (no more than a few sentences) and bring it in on the first day of school. You will be expected to discuss this article and what makes it a statistical article and/or why you chose to read this article for this class.**

- #3 AP Statistics Readiness**
Go to my website and under AP Statistics Chapter 0
 - **Read:** AP Statistics Classroom Expectations
 - (a) **Write 3** questions about the expectations that you need me to clarify or things you want to know about my classroom procedures. I will ask you to ask the questions that you write.
 - (b) **You must print and complete “Integrity” and “Note to Parents/Guardians” for first day back.**
 - **Print and complete** Calculator Contract whether you need a graphing calculator (top part) or do not need a graphing calculator (bottom part). **DO NOT CUT PAPER IN HALF.**
 - **Complete the “First Night of Statistics.”**
